

# angel TREE MISSION

## *The Ainsworth Family*

### **Battling: 39-year-old, Sara**

Sara never expected to have to tell her three beautiful children that mommy had cancer, but on August 13<sup>th</sup>, she did just that. Diagnosed with an aggressive Invasive Ductal Carcinoma, Sara was now battling for her life with her husband of 17 years, Dawson (age 41), and their children, Jackson (age 12), Blaire & Garner (twins, age 8) by her side.

The Ainsworth's new reality revolves around the battle of survival. Sara's current treatment plan at MD Anderson consists of 5 months of chemotherapy, surgery in March and then six weeks of radiation. She will then endure 17 Herceptin infusions and 5-10 years of Tamoxifen. Although the fight won't be easy, Sara chooses to focus on what's important; getting well and loving on her adorable family.

*This year we join together to help this family  
have a wonderful Christmas!*
